The Liffey Press, Ireland, 2006. Paperback. Condition: New. Language: English . Brand New Book. Religion is becoming an increasing source of tension in the world. Fundamentalism is on the rise. Christians, Muslims, Buddhists, Jews, believers and non-believers are speaking to each other less and distrusting each other more. A clash of civilisations has been predicted. Future conflicts promise to be fought along lines of faith. But it need not be so. The Story of Virtue argues that the world s major faiths share much in common - more than many religious leaders will freely admit. Drawing upon core morality tales in Christianity, Islam, Buddhism, Judaism, and Confucianism, as well as western secular philosophy, this important work identifies a universal plea for people to be good. The book speaks to religious believers, and those belonging to no organised faith, pointing the way to a shared human ethic - a common set of virtues on which everyone can agree and to which everyone can aspire. Accessible and enlightening, The Story of Virtue unearths a wealth of inspiring fables and sacred parables from across the world, thereby filling a gap in understanding between religions. This is a book for anyone who cares about the future of inter-faith relations, and for anyone wishing to answer in his or her own life that perennial question, How should I live?.
