## Multiplication Facts Practice Book Improve Your Math Fluency Series

By Chris McMullen

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 120 pages. Dimensions: 9.8in. x 7.8in. x 0.4in. AUTHOR: Chris McMullen earned his Ph. D. in physics from Oklahoma State University and currently teaches physics at Northwestern State University of Louisiana. He developed the Improve Your Math Fluency series of workbooks to help students become more fluent in basic math skills. CONTENTS: This practice book is designed to help students first memorize and then develop fluency with their basic multiplication facts - i. e. multiplying numbers between 0 and 10. This book is conveniently divided up into four parts: Part 1 features a single number so that students can master one numbers multiplication facts at a time. Each problem in Part 2 has at least one factor that is no larger than 6, allowing students to concentrate on smaller numbers first. Similarly, the problems of Part 3 have at least one number as large as 6. Part 4 is a mixture of all multiplication facts with numbers from 0 thru 10. An introduction describes how parents and teachers can help students make the most of this workbook. A multiplication table is provided to help students who...
