DashFlows Book Group, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.TE-Mature Policies sustain Good Lives and Societies at the same time that they bolster economic growth in 95 of countries that adopt them; 80 of countries that do not are in a Collapse Trending today as well. Transition Economics Maturity Models describe what are the important measurable targets of any economy and explains how to change Policies as needed and when. Policies in Housing, Energy, Interest Rates, Debt, Social Policy - 18 measures in all. TE Maturity Models compare the Policies of 180 Countries with their GDP results to confirm why 72 of all countries are in a Collapse Trending today. TE-Mature nations are not among them as these countries are Collapse Trending just 5 of the time - and often to a much lesser degree as well. The U.S., Canada, Mexico, France, the U.K, Australia - are all examples of countries in Collapse Trendings. The Netherlands, Italy, Germany, China, Japan and most of Asia are not - they have Advancing Economies. Maturity Models explain how to direct resets for your country Policies that are researched to ensure positive results. Transition Economics is the Science of Renewable Automation and Social Policies that recognize and correct the naturally repeating cycles of our economies. Ensuring that people have living incomes, and that those incomes can provide renewed spending-power too, is the goal of every TE-Maturity Modelled Policy. Have you ever wondered why do monetary, housing, and social policies work sometimes - like they did in the 1950s and 1960s; but they do not seem to be working today? The reason is that Capitalism s inequities are cyclic - so that policy that works in the beginning of an Economic Cycle when there is...
