Boydell Press. Hardcover. Condition: New. 394 pages. Dimensions: 9.7in. x 6.3in. x 1.1in. Prefaced by a substantial introduction which traces the evolution of early modern social history over the last fifty years, these essays (each of them written by a leading authority) not only offer state-of-the-art assessments of the historiography but also represent the latest research on a variety of topics that have been at the heart of the development of the new social history and its cultural turn: gender relations and sexuality; governance and litigation; class and deference; labouring relations, neighbourliness and reciprocity; and social status and consumption.
