Do you believe: The companies whose equity capital you have invested in, follow prudent, scientific methods to enhance shareholders wealth. The wealth managers and investment advisors you rely on for their expertise, truly understand financial markets. Think again! . . . we do not yet have complete and generally accepted explanations for how financial markets function. . . Said the 2013 Nobel Economic Sciences Prize Committee, based on more than five decades of research by several Nobel Laureates and others worldwide. This book, based on a breakthrough research by the author, explains in a simple language what goes wrong in corporate financial practice and education, that puts shareholders wealth at serious risk.
