Arban that are the basis for these forty-nine duets are among the most assigned, practiced, played, and reviewed by all brass players - beginner, intermediate, advanced, and pro alike. But there were never duets based on them. until now! Practicing and playing them with your friends, students, and colleagues will yield tremendous benefits for all involved. You can even play these with trumpet players, they have their own edition also. Here s just a few suggestions for using these classic studies as duets: - Actually schedule a time each week to play duets. Don t just play notes - always make music! - Be sure to practice and play both parts. Each player will benefit from playing the 1st and 2nd parts. Have the 2nd part player follow the musical example of the 1st part player, then switch parts for more follow the leader practice. - After perfecting duets 19-37 as single tongue duets, speed up the tempo and use double tongue or triple tongue for even more fun. - These duets are also great for practicing sight reading, transposition, building endurance, increasing range...
