paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 202 Language: Chinese. English secondary school teaching the whole solution: high school chemistry (Required) (case version of) (Jiangsu) There are several: First. develop a strong interest in learning the knowledge of the Wizard . love is the best teacher. Cultivate interest in learning. in addition to the use of mathematics textbooks interesting and practicality is more important is to constantly and consciously study the various issues related to mathematics. to cultivate interest in mathematics in the study. so that really like this course. Weekdays learning and actively participate in class. seriously consider the positive statements. then you are interest in mathematics will be thicker. which makes it interesting to learn math. Second. develop good study habits in order to learn mathematics. to develop good study habits in the study in addition to the eyes. brain. hand. hard. Shansi. ask. but also do a good job preview before class grasp the key points; class. listen carefully. to expand the thinking; after-school comprehensive review. consolidate and improve; do the homework. and test the learning effect. These four steps each student should develop good habits. and the need to persevere. And master effective learning method in addition to good study habits and effective learning is essential: to pay attention to the summary of the knowledge. rules. methods. and techniques; attention to the kinds of questions classified and compare; attention to the wrong question accumulation and summarization; to strengthen the training of a given problem and a solution of the multi-title; to do the title to choose a good title. the fine title and a typical question. must not fall into the sea issues. Usually have to pay more attention to...
