Brand New Book ***** Print on Demand *****.MOST PEOPLE DO NOT LOOK FORWARD to visiting the dentist. Many avoid it as long as possible. Yet those same people will leave the dentist s office relieved, often with big smiles (assuming the Novocain has worn off). What most people do not realize is that the profession of dentistry has come a long way in recent years. New techniques and technologies such as lasers and air abrasion devices have changed the way dentists treat patients. A visit no longer has to be a source of dread. Dentistry involves more than just teeth alone. A dentist provides healthcare for the oral cavity, including soft tissue and bone, as well as the associated head and neck region. A typical dentist visit starts with an examination of the patient s teeth and mouth tissue. Based on what the dentist finds, a diagnosis is made and a treatment plan is proposed. Treatment may include removing tooth decay, filling cavities, repairing damaged teeth, extracting teeth, and/or replacing lost teeth. Most dentists are generalists who provide a wide array of services. On a given day, a general dentist will see people of all ages and backgrounds - sometimes entire families. There is never a dull moment because dentists never know who will be in the examining room, or what they will need. A patient could just be there for a checkup and cleaning. In that case, the dental hygienist on staff will take care of the cleaning, and the dental assistant will take a set of x-rays. The dentist will look at the x-rays in search of problems that need to be addressed right away or point out possible problems...
