

## Digimon Data Squad

By Frederic P. Miller

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - Digimon Data Squad, known in Japan as Digimon Savers is a Japanese anime television series, and the fifth series produced as part of the Digimon franchise. It was produced by Toei Animation, and aired every Sunday at 9:00 a.m. on the Fuji TV network. In addition, a tie-in movie called Ultimate Power! Burst Mode Invoke!, which is non-canonical, was released on December 9, 2006. Savers is the first Digimon program to be produced in almost four years, following 2002's Digimon Frontier. Unlike previous Digimon series, which were broadcast in English in Autumn of the same year as their Japanese release, there were a full eighteen months between the Japanese and English broadcasts, leading at first to some doubt as to whether the series would be dubbed at all. Not long after the discovery of an entry for the show on Toei's website, which featured anglicized names for some of the characters and the show's new English title, on April 25, 2007, Disney's ABC Network announced that it had signed an agreement with Toei Animation to license the show. 84 pp. Englisch.
