Frontiers in Algorithmics

By Xiaotie Deng

Springer-Verlag GmbH Jun 2009, 2009. Taschenbuch. Book Condition: Neu. 238x159x25 mm. Neuware - The Third International Frontiers of Algorithmics Workshop (FAW 2009), held during June 20-23, 2009 at Hefei University of Technology, Hefei, Anhui, China, continued to provide a focused forum on current trends in research on algorithmics, including discrete structures and their applications. We aim at stimulating the various fields for which algorithmics can become a crucial enabler, and to strengthen the ties between the Eastern and Western algorithmics research communities as well as theory and practice of algorithmics. We had three distinguished invited speakers: Guoliang Chen, Andrew Chi-Chih Yao and Frances Foong Yao, speaking on parallel computing, communication complexity and applications, and computer and network power management. The final program also included 33 peer-reviewed papers selected out of 87 contributed submissions, covering topics including approximation and online algorithms; computational geometry; graph theory and graph algorithms; games and applications; heuristics; large-scale data mining; machine learning; pattern recognition algorithms; and parameterized algorithms. April 2009 Xiaotie Deng John Hopcroft Jinyun Xue Organization FAW 2009 was organized by Hefei University of Technology, China. 372 pp. Englisch.

Reviews

A very amazing publication with perfect and lucid information. We have read through and that I am certain that I will plan to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).

-- **Matilda Hoeger V**

The best publication I actually study. We have studied and that I am certain that I will likely study once more again later on. Your daily life span will likely be transformed the instant you total reading this book.

-- **Mrs. Alene Leffler DVM**
