## PROGRAMMABLE LOGIC CONTROLLER SYSTEM DESIGN TECHNOLOGY THEORY AND APPLICATION (2ND EDITION)

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: metallurgy Pub. Date :2006-10-01. The revision of the programmable logic controller technology development and engineering applications. in I made on the basis of version updates and deletion. Version 2 main line of engineering system design. introducing the programmable logic controller structure and working principle. based on focused on the programmable logic controller hardware system design. application software design methods. a typical programmable logic controller product instruction and programming. programmable logic controller system design engineering application examples and other content. especially for the widely used F-Series and S7-200 series products. application characteristics. instruction. program design and engineering application made more detail. 2nd edition content reflects the programmable technology of the new theories and new methods. application of stronger. more systematic. In addition. the amendments also specifically adds chapter points. so that the reader self-study. This book can serve as institutions of higher learning related to professional teaching books. but also to engage in industrial automation. mechanical engineering and automation and computer applications. professional engineering and technical personnel. Contents: 1 Introduction 1.1 Definition 1.2 programmable controllers programmable logic controller of the development process and the status of 1.3 the basic characteristics of programmable logic controller programmable logic controller applications 1.4 1.5 programmable logic controller system design of the basic content of the application and Step 2-programmable logic controller structure and working principle of the composition and 2.1 programmable logic controller programmable logic controller 2.2 working process performance indicators and classification 2.3 programmable logic controller input and output interface module 2.4 Programmable logic controller intelligent interface and an external device programmer 2.5 2.6 typical programmable control Four Satisfaction guaranteed, or money back.
