Tata McGraw-Hill Education Pvt. Ltd., 2009. Hardcover. Book Condition: New. First edition. An important addition to the Time-Saver Standards Series, this book offers top-flight guidance for architects and builders who need to select any tpe of product, system, component, material, or assembly for any job. Provides easy-to-understand guidance on how various materials function, considers key issues in product selection, and offers general information on the full range of product types. Organized by CSI MasterFormat--the product specification system most commonly used in construction and in the Sweet`s catalogs. Cross-referenced to the UniFormat system, which indexes products by the sequence of assembly in design and construction--a real plus when engaged in preliminary design and cost-estimating.
