By Nicholas O Time

Simon Spotlight, 2017. Paperback. Condition: New. Language: English . Brand New Book. Ava learns to live without technology when she travels back in time to 1891 in this wacky fifth book in the In Due Time series. When Ava Larsen gets the chance to travel back in time, she knows exactly where she wants to go--back to 1991, when her mom had a chance to move to Hollywood. Ava is sure if she lived in Hollywood, she could be a star! But when the time-traveling Book of Memories sends her back to 1891 instead, it s less of a dream and more of a nightmare. No Internet, no texting, and how will she ever survive without her video games and reality TV shows? Ava is not the type of girl to rough it --she needs to get back to the present, and fast! But maybe a little time in this distant past is exactly what Ava needs to learn to be more present in the future.
