Extraterrestrial Sands: Part of the God King Scenario Series (GKS)

By Gary Gilligan

Troubador Publishing, United Kingdom, 2016. Paperback. Book Condition: New. 198 x 129 mm. Language: English . Brand New Book. Quartz sand is anywhere and everywhere imaginable on the surface of the Earth. It forms the vast sandy Sahara and Arabian deserts, where dunes can reach a staggering 180 meters (600 ft) in height. It makes up the world's immense sandstone deposits, forms our beaches and is present in most soils around the globe. The question is: where did all the sand come from? All scholars hold the view that the primary source of our sand lies with the weathering and erosion of granite outcrops - a process that is said to take billions of years (uniformitarianism). But is this correct? Is there anybody brave enough to challenge this seemingly impregnable bastion of geological principles? Extraterrestrial Sands does just that. Extraterrestrial Sands dismantles the consensus model and explores the radical idea that sand is extraterrestrial in origin. The theory states that the planet Mars entered into hundreds of catastrophic close encounters with earth during historical times. During these encounters an incandescent molten Mars internally convulsed and ejected immeasurable quantities of vaporised rock, volatiles, dust and debris out into space -...

Reviews

I just started out reading this pdf. It is full of wisdom and knowledge You are going to like just how the blogger publish this publication.
