(PAPERBACK) ebook.

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Encouraging U.S. exports of civilian nuclear products, services, and technology while ensuring they are not used for foreign nuclear weapons programs is a fundamental goal of U.S. policy. Exports of U.S. civilian nuclear technology, assistance, and services are regulated by DOE through 10 C.F.R. Part 810. Depending on the importing country and technology, exports can be generally authorized, with no application required, or specifically authorized, in which case the exporter must submit an application to DOE. The Departments of Commerce, Defense, and State, as well as the Nuclear Regulatory Commission, also review the applications, which must finally be approved by the Secretary of Energy. GAO was asked to examine the Part 810 process. This report examines (1) Part 810 processing times over the last 6 years compared with DOE s targets; (2) the extent to which Part 810 s scope is clear and DOE can reasonably assure consistent interpretation; and (3) the extent to which DOE enforces Part 810. GAO analyzed all 89 specific authorizations granted from 2008-2013 and interviewed key agency officials and U.S. nuclear industry representatives.
