

The Autopoiesis of Architecture: v. 2: A New Agenda for Architecture (Hardback)

By Patrik S. Schumacher

John Wiley and Sons Ltd, United Kingdom, 2012. Hardback. Condition: New. 1. Auflage. Language: English . Brand New Book. Whereas the first volume of this set provides the intellectual groundwork for Schumacher's ideas, the second volume addresses the specific, contemporary challenges that architecture faces. It formulates these tasks, looking specifically at how architecture organizes and articulates the complexity of post-fordist network society. This addresses how current architecture can upgrade its design methodology for an increasingly demanding task environment, characterized by both complexity and novelty. Architecture's role within contemporary society is explained and its relationship to politics is clarified. Finally, the emerging new style of Parametricism is introduced and theoretically grounded.
