Anthem Press, United Kingdom, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Over the last two decades, Eastern Europe has experienced extensive changes in geo-political relocations and relations. Attempts to establish liberal democracies, re-orientations from planned to market economics, and a desire to create new states and internationally minded new citizens has left some in poverty, unemployment and social insecurity, leading them to rely on normative coping and semi-autonomous strategies for security and social guarantees. Such processes testify to a paradoxical situation between the political attempts to create well-functioning, modern civil societies, and the reliance on normative laws on the margins of society. This anthology explores aspects of everyday uncertainty, which are defined as grey zones . Within anthropology, grey zones have been conceived of in relation to political corruption and zones of ambiguity related to violence. Yet, the authors propose to expand the term to include situations where uncertainty and ambiguity have become part and parcel of everyday life and where the indefinable defines the situation. This book views these various grey zones not merely as legacies of socialism but as something in and of themselves; thus it deploys the notion of grey zones in order to find new ways of approaching and conceptualizing current situations in Eastern Europe, ways that are not preconfigured in terms of post-socialism or transition.
