Empty Harvest: Understanding the Link Between Our Food, Our Immunity and Our Planet

By Bernard Jensen, Mark Anderson

Avery Publishing Group Inc., U.S., United States, 2000. Paperback. Book Condition: New. 2nd Revised edition. 229 x 150 mm. Language: English . Brand New Book. Nearly twenty years after its initial publication, Dr. Bernard Jensen's sobering picture of just how interconnected man is with the earth, and how this connection is being destroyed? link by link? still resonates powerfully. In this eye-opening account of the inherent dangers in our agricultural system, Jensen looks at the better-known manmade disasters, such as the greenhouse effect, as well as the ecological and subsequent health related problems hidden from the general public at the time. Empty Harvest is a groundbreaking book that examines just what the total problem was and still is. ?In a day when it is cheap and easy to be a doomsday prophet, Empty Harvest shines like a bright beacon of hope and ecological sanity. While exposing the dire consequences of thinking we can grow healthy food with poisons, this excellent book defines positive alternatives, and demonstrates their power to restore us to true health. Empty Harvest lights the way toward living in harmony and happiness with the forces of life." --John Robbins, author of Diet for a New America.
