VSC-HVDC POWER TRANSMISSION CONTROL: A CASE STUDY IN LINEAR CONTROLLER DESIGN FOR UNCERTAIN NONLINEAR PLANTS

Shaker Verlag Mrz 2008, 2008. Taschenbuch. Condition: Neu. Neuware - The problem of designing linear controllers for nonlinear plants is investigated in this thesis through a practical example from electrical transmission engineering, the control of a terminal of a VSC HVDC (voltage source converter high voltage direct current) transmission system. VSC HVDC is a technology for transmitting electrical energy between two AC systems in which high power transistors are switched at high frequency to control the voltages and power flows...
