

ABC s of Brain Compatible Learning (Paperback)

By Anjum Babukhan

Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.A perfect blend of leadership experience and intelligent accomplishments, Anjum Babukhan has to her educational assets, her honors in Psychology from Loyola University of Chicago, Illinois, USA. This young psychology graduate worked under various research teams and moved on to pursue her M.Ed. in Educational Administration and Instructional Leadership from the University of Illinois at Chicago. Brain compatible learning, coined by Leslie Hart is an interdisciplinary approach to learning based on how the brain learns best is based on extensive neuroscience research. Inspired from this body of research, The ABCs Book is a Collection of the key principles that have been suggested by many eminent educationists such as Dr. Howard Gardner and Eric Jensen. It is an arrangement of the actionable knowledge in an alphabetical format for easy reference, in addition to a number of suggestions to show how the ideas can be put to use in a classroom or at home with children. All the tips provided here have been tried and tested by many dynamic teachers across the globe and in India. She is one of the most influential thinkers...

Reviews

The ebook is fantastic and great. It really is basic but unexpected situations within the fifty percent in the book. Its been written in an exceptionally basic way in fact it is only after i finished reading through this ebook by which actually modified me, modify the way in my opinion.

-- **Ms. Donna Parker MD**

This ebook is definitely not straightforward to start on looking at but really enjoyable to learn. It usually will not charge excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.
