US special operations forces typically make use of some of the most sophisticated military and intelligence gear available. But sometimes a no tech solution is the right one. So, for example, Special Forces may find themselves involved in operations in rural or remote environments. using pack animals, including horses, donkeys and mules. Pack animal operations are ideally suited for, but not limited to, conducting various missions in high mountain terrain, deserts, and dense jungle terrain. This Army Special Forces manual, FM 3-05.213 Special Forces Use of Pack Animals provides instruction and doctrinal guidance for using pack animals in training and combat missions. This manual provides the techniques of animal pack transport and for organizing and operating pack animal units. It captures some of the expertise and techniques that have been lost in the United States Army over the last 50 years. . The manual provides the characteristics of each of the various pack animals, some rudiments of veterinary care, and miscellaneous lore.
