Excerpt from Facts and Figures Showing the Quantity and Cost of the Work of the Department of Health for a Five-Year Period: With a Summary of the Results to the Public Health Sir - Your administration will be measured as much by its results in the protection and saving of human lives as by any record of accomplishments in the sphere of finance, law or material equipment for transacting the city s business. Allow me to offer herewith a brief record of public health protection during the past four years, and for comparison a statement of service and results in the year with the best previous record in the city s history. The confidence which you have placed in the Department and the independence of action in matters within the sphere of its technical work which your administration has granted, have been indispensable factors in whatever success has been achieved. In reporting here upon my service under your appointment, it is a pleasure to pay full tribute to the ability and devotion of the Directors of the Bureaus of the Department, within their respective fields, and to the loyalty of the personnel of the Department as a whole to the best interests of the city s health.
