# A Remote Entry System for the CDC 6600 (Classic Reprint) (Paperback)

By E Franceschini

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Remote Entry System for the CDC 6600 Most often the remote users store their programs at the central computer, and input jobs consist of control cards to call in the desired program, and data. Facilities are provided for editing and updating. Transmitted output is usually a print file, but some users generate punched decks from which incremental plots are produced. Display output can also be transmitted, and this will indeed be the case for the CDC 200. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
