NATURAL APPROACHES TO READING AND WRITING

Praeger. Paperback. Condition: New. 216 pages. Dimensions: 9.2in. x 6.1in. x 0.5in. This volume begins with an overview of theories supporting natural language development—Piagetian, Vygotskian, and cognitive or information processing. Following the theoretical basis for natural language processes in reading and writing, chapters explore the following: how young children acquire rapid growth in oral language without direct instruction; the universality of play in language learning; and portfolio assessment. The contributors develop specific approaches for developing literacy, as chapters focus on the development of preschool early writing, in-school techniques for developing effective collaborative writing experiences, recommendations for creating and facilitating literacy classrooms, children's literature, metacognition in the reading process, and the notion of the theme unit through literature. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
