Ronin seeks to fill this void with an enjoyable system that is easy and cheap to take up. Gameplay is based upon a d6 system that forces players to make tactical decisions about attack and defence, simulating the cut and thrust of hand-to-hand combat. There are numerous player factions, from Samurai and Ashigaru, the professional soldiers of the period, to Buddhist warrior monks, martial arts schools, and bandits. There are also swords for hire such as Ronin and ninja that players can hire to augment their warband. Players design their warband using a points system, and assign each model weapons, armour and martial skills. Weapons include the yari (pikespear), naginata (pole arm), yumi (bow), arquebus and of course the katana and its variants. Specialist skills allow a model to undertake various special actions (for example, arrow-cutter provides additional defence against bow fire) or increases the proficiency of the model with a specific weapon. As well as straight warband-on-warband battles, there are specific scenarios, some of them linked to provide a loose narrative. Gameplay is based upon a d6 system that forces...
