Williams is mine boss. Upon my visits of July 28 and 29, I found the south cut off without air, whereupon I requested a break-through system established and a check door hung between the two entries. I requested that a break-through be made in room 17 on the dark east entry, in room 16 on the main east, No. 10 main east, No. 62 on the east, No. 10 on the third east, and in room 13 on the fourth east entries. I also requested that break-throughs be driven from No. 1 room on the sixth east to the main dark entry. The air throughout the mine was deficient for the want of a system of ventilation. I found small quantities of gas at the head of the third and fourth east entries. With a proper breakthrough system, this gas will be of little consequence. I gave the management 12.days to comply with my requests. Two hundred miners and 43 day men were employed. On August 12, I again visited this mine to look after the improvements which I had requested at the time of my former inspection. I found that my requests had been fully complied with, and the mine is now in good condition. KISTLER OR NO. 16.
