Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Street Lighting 1. Preliminary. - It is the purpose of this bulletin to make available information concerning street illumination. The suggestion which led to this compilation came from the many inquiries received by the Electrical Engineering Department each year from those interested in framing ordinances permitting corporations or individuals to operate street lighting systems. An attempt has been made to present this information in such a form as to be readily understood by the general public, without requiring any special technical knowledge. The data have been compiled from reliable sources, and checked in many instances by tests conducted by the writers. This bulletin is designed to be of assistance to central station superintendents, and to the general public in selecting the proper lamp and fixing the charge for the same. It is also designed to be of value to the illuminating engineer and to the manufacturer, and in clearing up, or perhaps in preventing misunderstandings, which so frequently arise between municipalities and power companies. These misunderstandings, being usually the outcome of imperfect knowledge of the effectiveness and limitations of ordinary street lighting units, may readily be prevented if specifications and contracts be made definite and clear. Many contracts are based upon the rates charged in cities of about the same size for the same class of service, regardless of the comparative operating cost of the installation in each case. Many companies do not compute the cost of any one particular branch of their service, but are satisfied if their total yearly balance shows a profit. Other companies, while knowing the cost of operation of the street lights, are still governed by the prevailing rate in...
