University of Hawai i Press, United States, 2000. Paperback. Condition: New. First. Language: English . Brand New Book. Modern Korean breaks new ground in the field of Korean studies by providing students at last with an intermediate-level language text. The volume emphasizes the development of reading proficiency, but the exercises reinforce skills learned through conversation practice. They use a communicative approach emphasizing student-student and student-teacher interactions in real-life scenarios. Twenty-four lessons are divided into two groups of twelve lessons each. A single lesson consists of a main text, written in expository or descriptive prose that often incorporates a conversational style; a dialogue; a discussion of new word usage and structural patterns; substitution and grammar drills; exercises; and a vocabulary list. The second half of the book introduces Chinese characters found in each lesson. Modern Korean may be used for classroom instruction or self-study. Main text topics cover a wide range of subjects including Korean history, geography, holidays, literature, customs, and people, allowing students to develop a better understanding of Korean society and culture while improving their language skills.
