Reviews

Here is the best pdf i actually have go through till now. We have study and i also am certain that i am going to planning to go through once again once more in the future. You will not sense monotony at at any time of the time (that's what catalogs are for regarding in the event you question me).

(Frederique Rolfson)

MEDIAWIKI (PAPERBACK)

O Reilly Media, Inc, USA, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book. A good book! It s a nice overview of wiki editing and administration, with pointers to handy extensions and further online documentation - Brion Vibber, Chief Technical Officer, Wikimedia Foundation. This book is filled with practical knowledge based on experience. It s not just spouting some party line - Rob Church, a developer of MediaWiki. MediaWiki is the world s most popular wiki platform, the software that runs Wikipedia and thousands of other websites. Though it appears simple to use at first glance, MediaWiki has extraordinarily powerful and deep capabilities for managing and organizing knowledge. In corporate environments, MediaWiki can transform the way teams write and collaborate. This comprehensive book covers MediaWiki s rich (and sometimes subtle) features, helping you become a wiki expert in no time.You ll learn how to: find your way around by effective searching and browsing; create and edit articles, categories, and user preferences; use advanced features for authors, such as templates, dynamic lists, logical parser functions, and RSS, to organize and maintain large numbers of articles; install and run your own wiki, and configure its look and behavior; and, develop custom wiki features, called extensions, with the PHP programming language and MySQL database. This book also provides special guidance for creating successful corporate wikis. For beginners who want to create or work on collaborative, community-driven websites with this platform, MediaWiki is the essential one-stop guide. I was a MediaWiki newbie before reading this book. Now, many aspects of the platform that were murky before are crystal clear - JP Vossen, author of O Reilly s Bash Cookbook .
