

Extraction and transport of urea using synthetic receptor through LMT

By Joshi, Nidhi / Roy, Rushikesh

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Over the last few years research about liquid membrane technology has become more and more importance due to its versatile uses to make various biosensor and hemo-dialysis with lower capital cost, high efficiency and easy synthesis process for the bulk production and separation. This book is mainly focus in synthesis of artificial membrane using synthetic receptors through liquid membrane technology. The Urea value in blood try to reduce using synthetic receptors through liquid membrane technology. This book guide how open chain ether number increases more interaction with urea to bind through hydrogen bond and value of urea decreases in blood. This book is useful for many research students for whoever work in the field of supramolecules and liquid membrane technology. This | Format: Paperback | Language/Sprache: english | 84 pp.
