Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from **Everybody s Astrology** The reader will have observed how all things, big and small, throughout nature, all operate on the same principle. Life in the great cell which we call our solar system, appears to live by the same law of revolution as the blood in our bodies, and as the atoms which compose it revolve in the greater cell, the molecule, at distances apart comparatively as great as the distances of the planets from each other. Modern science tells us that the electrons which com pose the atom are not matter at all, but thought waves forming angles. All this motion and revolution be come vibration and as it rises on the vibratory scale it becomes one color or another, one matter or another, in harmony or discord with other matter on a differ ent scale of vibration. It forms laws of attraction, repulsion, joy and pain. We say it is life. Science tells us there is only One Life. Will those who pro fess to believe, as well as those who profess to dis believe, if such there be, that the universe is one verse please explain how the conceited little pigmy atom, man, ever got it into his head that he is un-in?uenced, free and independent of the laws of the great mole cule of which he is a part?
