Human Kinetics. Hardcover. Condition: New. Therapeutic Modalities for Musculoskeletal Injuries, Fourth Edition With Online Video, offers comprehensive coverage of evidence-based therapies for rehabilitation of musculoskeletal injuries. The information aligns with the Board of Certifications Role Delineation StudyPractice Analysis, Sixth Edition, and the Commission on Accreditation of Athletic Training Education's Athletic Training Education Competencies, Fifth Edition, and is a vital resource for students preparing for examinations as well as professionals in the field who wish to stay informed of the latest research. Therapeutic Modalities for Musculoskeletal Injuries, Fourth Edition, applies evidence-based research and clinical experiences of top practitioners in the field to optimize the care of musculoskeletal injuries and provides students and practitioners with solid fundamentals in development of rehabilitation programs. The content of this fourth edition has been significantly updated and revitalized to include all modalities that coincide with BOC requirements and offers the latest in contemporary science in the field. Further updates include the following: New online video that corresponds to modalities discussed throughout the text, directly demonstrating how to apply techniques to individual patients A new chapter on mechanobiology that provides new understanding of the effects of movement and activity on cell function A new chapter on the application of exercise as a stimulus for tissue repair Additional information on the principles and clinical applications of cold, heat, electrotherapy, laser, and ultrasound Updated and revamped case studies and guided scenarios that apply all modalities found throughout the book to real-world situations The content of the book is organized in parts to logically address therapeutic interventions for musculoskeletal injuries. Part I explains the core concepts of therapy, specifically in terms of clinical practice, and part II addresses the physiology of the acute response to tissue damage, tissue repair, and pain. Part III examines electrical modalities for pain management, provides...
