Reviews

This type of ebook is everything and got me to seeking in advance plus more. it was writtern really completely and helpful. You wont feel monotony at at any moment of your respective time (that's what catalogues are for about should you request me).
(Dr. Santino Cremin)

HUMAN DISEASE AND HEALTH PROMOTION

Wiley-VCH Verlag GmbH & Co. KGaA Jun 2017, 2017. Taschenbuch. Condition: Neu. Neuwere - Human Disease and Health Promotion is designed to develop the future health professional's role as educator and advocate. Readers gain knowledge and skills that enhance health literacy for diverse learners and multi-cultural populations. In addition to clinical information on human disease, the book teaches how to apply current health literacy theories and participatory patient education strategies. Guided by exercises in the chapters, Readers learn to design, implement and evaluate health literacy methodologies and communication approaches. Technological advances, as well as health literacy issues in patient education and health advocacy are examined, analyzed, and applied through case studies. Designed for students in health education, community health, and health social work, the book examines mechanisms of diseases and their treatments, epidemiology and pathology of major diseases, and attendant psychosocial implications. Prevention and control are discussed through the lens of health literacy, the degree to which individuals have the capacity to obtain, process, and understand basic health information and services needed to make appropriate health decisions. The book highlights: knowledge of prevalent non-communicable and communicable diseases and conditions; skills development application and acquisition; patients as active participants in their care; trans-disciplinary team approach in health care services; holistic self-care; and reliable, valid, patient-focused health information. Table of Contents: Part One - Foundations of Human Health 1 Overview of Health; What is health Why is health difficult to define ; What is the World Health Organization's (WHO) definition of health ; What are risk factors and protective factors that influence health and illness ; How does the three 'P's' of pollution, population, and poverty influence health together and separately ; How do you measure health, wellness, diseases and conditions, and illness ; Why is health a basic human right and how is it linked to all...
