Tarquin Publications. Paperback. Book Condition: new. BRAND NEW, Geometric Patterns from Tiles and Brickwork, Robert Field, Bricks and tiles are two of the most universal and ancient building materials and they are able to combine tremendous versatility with the economies and advantages of mass production of standard units. They are employed in repetitive arrangements both to give strength to the structure and to cover surfaces, leading to many different kinds of bonds and styles of surface patterning. Whether you raise your eyes upwards or drop them to look at floors or pavements, there are patterns to be seen and this book draws attention to them.
