Reviews

This publication could be worth a read through, and far better than other. This is certainly for all those who statte there was not a worth reading through. You may like just how the author compose this publication.

(Dr. Kayley Kovacek PhD)

COMPOSITAE NEWSLETTER: DECEMBER, 1975 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Compositae Newsletter: December, 1975 It is obvious that this book was written with the intent to provide all necessary information to assist laboratory work on sesquiterpene lactones. Since nmr spectroscopy is one of the major tools in the structure elucidation of the different types of sesquiterpene lactones, the wealth of nmr spectra of known compounds in this book is of great assistance in the structural work on new compounds. In our laboratory, the book is in constant use by the students and myself. In general, this new book should attract the interest of a large group of scientists, in particular, phytochemists and pharmacologists, and, last but not least, taxonomists who are interested in the use of chemical data in the systematics of the Compositae. Nikolaus H. Fischer, Department of Chemistry, Louisiana State University, Baton Rouge, Louisiana 70803, u.s.a. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
