

Congressional Edition Volume 4448

By Professor United States Congress

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: . In each case the widening mats were 150 feet wide, and extend across the river from low-water mark to low-water mark. These mats contain 352,200 square feet, and were sunk in place at a total field cost of 5.9964 cents per square foot, including the cost of extra ballast placed upon the mat above the upper dam. A sketch is herewith, showing their location and the details of the work, and its costs are set forth in the accompanying report of Mr. H. S. Douglas, Assistant Engineer. The gauge at Red River Landing did not fall below 1.3 during the season, so less than the usual amount of dredging became necessary in Old River. It is estimated that 57,000 cubic yards of material were dredged and deposited in the stream alongside the cut made by the dredge. The dredge was kept in Old River from...
