This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Excerpt from An Introduction to Surgery The excellent surgical textbooks now available for the use of students have given rise to some doubts as to the need for any further instruction by means of systematic surgical lectures. My own View is decidedly in favour of a course of lectures, provided that they are not mere abstracts from the textbooks, but are directed rather towards those main principles of diagnosis and treatment that are based on a sound knowledge of pathology. They should be aids to the student in thinking out for himself those pathological and diagnostic problems that are presented to him in the wards and in the textbooks. In order to do this, he must study these General Principles and understand the value of their universal application in so-called special regions, that is, to diseases affect ing any portion of the body. As soon as the General Principles are understood, and their applicability realized, the student ceases to be overwhelmed by the masses of detail..
