

Statistics for Terrified Biologists

By Helmut F. van Emden

John Wiley and Sons Ltd. Paperback. Book Condition: new. BRAND NEW, Statistics for Terrified Biologists, Helmut F. van Emden, "We highly recommend it-not just for statistically terrified biology students and faculty, but also for those who are occasionally anxious or uncertain. In addition to being a good starting point to learn statistics, it is a useful place to return to refresh your memory." -The Quarterly Review of Biology, March 2009 "During the entire course of my Ph.D. I've been (embarrassingly) looking for a way to teach myself the fundamentals of statistical analysis. At this point in my education, I've come to realize that often times, simply knowing the basics is enough for you to properly apply even the most complex analytical methods. 'Statistics for Terrified Biologists' has been just such a book - it was more than worth the \$40 I spent on it, and while my 'book clubs' aren't meant to be reviews, I highly recommend the book to anyone who's in a similar predicament to my own." -Carlo Artieri's Blog Book Club The typical biology student is "hardwired" to be wary of any tasks involving the application of mathematics and statistical analyses, but the plain fact is much...
