Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Current Research, Future Directions | Is this book boring? Of course it is! After all, this is a scholarly research study. But here's why you should buy this book anyway: If you are a psychologist, psychiatrist, physician, nurse, counselor, therapist, pastor, chaplain, social worker, or a student of any of these disciplines-or anyone else that aspires to work with the human condition-then you need to know the neglected connection between religion, spirituality, and coping. Current professional standards require "best practice" and "evidence-based" services. Current ethical codes mandate "cultural competence" and attention to "diversity." None of these demands for professionalism is met when we ignore-whether willingly or otherwise-the coping methodologies of our religious and spiritual clients. In short, this scholarly work accomplishes three major feats: (1) Reviews decades of research on religious / spiritual coping. (2) Examines religious / spiritual interventions with scientific rigor. (3) Draws conclusions and makes concrete recommendations based on these findings. This book is a "must have" for your professional library! | Format: Paperback | Language/Sprache: english | 120 pp.
