Definitely one of the better book We have possibly read. We have read through and i also am certain that i am going to gonna study once again yet again in the foreseeable future. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Lily grew more and more lonely until at eighteen, she was perfectly ready to move the nearly 1,000 km to Bangkok to study medicine, although she knew no-one there and had never left the province before. However, life in the capital was not all roses either as she was short of money to pay for her course and living expenses. The only solution she could think of was to have several boyfriends and she invented different personas for each. It wasn't long before the strain of her lifestyle became too much for her with disastrous consequences for people around her. However, would any of it happened at all if she had not been abused as a child? The good people of Bangkok will never know, but...
