Mr. Cavaleri then presents a case study of the US occupation of Japan after World War II, followed by a parallel analysis of the case study and ongoing stability operations in Afghanistan and Iraq through the lens of the critical planning factors. This study serves as a bridge between the tactics, techniques, and procedures (TTP) found in stability operations how-to manuals and the broader military operations other than war (MOOTW) concepts found in joint doctrine. Its purpose was to identify key themes that merit consideration when planning or conducting transitions between combat operations and stability operations.
