Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Trout River Aquaponics Blueprints for Painless Gardening is our way of Helping others with Physical Disabilities or Health Limitations enjoy gardening, again. Trout River Aquaponics provides several options, each with complete plans to build or adapt your own aquaponics system and save money doing it. Our goal is to find a way to be more self-sufficient growing our own food, even though we are prone to the aches and pains of in-ground gardening at retirement age. Aquaponics is not new, dating back to 450 B.C. in the Hanging Gardens of Babylon, but it was new to us. Like so many others we searched the internet but, there were too many self proclaimed experts. Knowing our limitations and with complete faith in ourselves the journey began. We designed, built and tested our growing systems, working-out any flaws as we went. After six years of work we realized others could benefit from our experience. We wrote and illustrated 10 individual project specific eBooks (plus one), each one a complete guide to build an Aquaponics grow system. We have removed most of the problems for you. Our eleventh eBook is a compilation of all 10 of the Aquaponics projects seen in our 20 x30 backyard today. FYI; Lisa is an Architect using AutoCAD and she is an experienced Photographer. I am/was an FAA Technical Writer, ATC Master Training Specialist. Our eBooks are clear, concise and easy to understand. Yet, For Schools, they are training syllabus or workbook quality for both Teachers and Students. Each of the pictures and drawings in our books are our hard work and simplify your project. Please give our Trout River Aquaponics: Blueprints for Painless Gardening a try....
