## REGULATORY BARRIERS TO MANUFACTURED HOUSING PLACEMENT IN URBAN COMMUNITIES (PAPERBACK)

Bibliogov, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Manufactured housing units (built under the HUD Code or Manufactured Home Construction and Safety Standards in the controlled environment of a manufacturing plant and transported in one or more sections on a permanent chassis) provide an important source of affordable housing within the United States. After adjusting for land costs, the per square foot cost of HUD-Code housing is less than half of standard, site-built housing. With the increased use of multi-section units and recent innovations in manufactured housing building technology, particularly integrated floor and chassis systems, many manufactured housing units are now virtually indistinguishable from conventional site-built units. This study examines the scope and severity of state and local regulatory barriers to manufactured housing placement within CDBG-eligible communities.
