Reviews

It is one of my personal favorite books. It is written in easy terms and never hard to understand. It has been designed in an exceedingly easy way and it is only after I finished reading this publication that I changed my way of thinking.

Excerpt from The Maritime Medical News, Vol. 18: A Monthly Journal Devoted to Medicine and Surgery; June, 1906 The subject is one of great importance, and the increasing number of cases met with go to show that many cases heretofore diagnosed as marasmus, etc., are now being recognized as pyloric stenosis, and in consequence some, if not many, lives have been saved to the glory and satisfaction Of our profession. In addition to the subject under discussion, I wish this paper to be considered as a plea for the more thorough and frequent physical examination of children, without which it is impossible for us to make advances in this branch of our profession.
