Reviews

An incredibly wonderful ebook with perfect and lucid explanations. I really could comprehend every little thing using this written e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Tomas Flatley)

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 200 pages. Dimensions: 9.0in. x 6.0in. x 0.4in. Excerpt from Electro-Hmostasis in Operative Surgery This contribution relating to electro-hemostasis and the electric cautery in general and special surgery, is issued to supplement the third edition of my work on diseases of women, in which the subject was referred to, but altogether too briefly discussed. The interest manifested by the profession in this subject, the employment of the new methods of operating in other than gynaecological surgery, a number of recent improvements in instruments and in the technique of operating, and a larger experience confirmatory of the value of the principles and practice advocated, both prompted the undertaking and raise the hope that the results will be acceptable to the profession. The part of the work devoted to electro-haemostasis may appear to be rather aggressive, not to say revolutionary, and therefore it might be judicious to give in this preface a statement explanatory of the principles involved and a preliminary argument in their favor; but past experiences remind me that it is unnecessary to do so. In former contributions to medical literature I have avoided all declamations and special pleadings regarding the merits of that which I had to offer, in order that I should have the opinion of the profession to guide me to rational conclusions regarding the value of my work. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
