The Healthy City Initiative which began in 1987 with WHO support is a development activity that seeks to put Health on the agenda of decision-makers in cities, to build a strong lobby for public health at the local Level and to develop a local participatory approach to dealing with health and Environmental problems. Ultimately, the initiative aims to improve the physical, mental, social and environmental well-being of the people who live and work in Urban areas. There is Failure to conceive healthy urban Vision and to muster a Sound and sustained implementational will. Today, in every aspect of city life, the prevailing conditions present a sad picture. Today, Cities have become places where one finds heaps of debris and Poor environment. Cities being overcrowded are full of slums in all parts. Even Normal areas also look like slums.
