There are situations in which people say they would do anything to be in another s shoes and do things a bit differently than they would, but nobody ever gets the chance. So I wondered what would happen if for a moment we were all able to become someone else and the moment was so fulfilling that we had to have it again and again and would only be stopped either by ourselves or by an outside force. Throughout this story not only does he learn about other people around him, but about himself and who he really is, along with the father who killed his mother and abandoned him when he was younger. Through the blade, he is finally able to forgive his father, learn his why, learn from the mistakes his father made, and move on with the rest of his killings. Despite being completely involved in who he kills and taking care of them after death, as well as talking to them on a daily basis, he doesn t even know their names. In the end his obsession with trying to become a part of their world pushes him to finding a way to join their world and become one of them. But he realizes he can t kill himself and through much time understands that it is his destiny to, as he likes to call it, free people from this life, so they can...
