Biblioscholar Okt 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x2 mm. This item is printed on demand - Print on Demand Neuware - The central issue of this paper addresses the lack of leadership in the acquisition career field and what can be done to correct it. The current environment within the Air Force poses a great leadership challenge to all officers, regardless of career field. However, the occupationalism that the service has fostered over the years has resulted in officers in the acquisition career field focusing on enhancing their managerial skills at the expense of their leadership qualities. As a result, many Program Directors are excellent managers, but lack even basic leadership skills. The lack of statutory or Air Force Materiel Command (AFMC) emphasis on leadership in the process of selecting Program Directors has perpetuated the managerial occupationalism that exists today. An objective measure of leadership ability must be factored into the existing selection process to ensure that personnel selected to fill critical Program Director positions have the demonstrated leadership potential needed to lead Program Offices into the 21st century. 40 pp. Englisch.
