## ADVANCES IN BRIDGE TECHNOLOGY: TIME-DEPENDENT PERFORMANCE

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Experimental and finite element analysis of concrete bridge deck slabs reinforced with composite materials | The non-corrodible fiber reinforced polymer (FRP) bars have been used as reinforcement for bridge deck slabs, barrier walls, and parking garages to mitigate the corrosion problem of conventional steel. Among different types of FRP materials, the lower cost of glass FRP (GFRP) bars makes them attractive for the bridge industry. Unlike steel, GFRP materials do not corrode...

### Reviews

*It in just one of the most popular ebook. It normally will not cost too much. I am very easily could get a pleasure of looking at a composed publication.*

-- **Rosetta Thompson**

*This created publication is excellent. It generally does not price a lot of. You may like just how the writer create this pdf.*

-- **Jo Kuhlman**

*Excellent electronic book and helpful one. Better then never, though i am quite late in start reading this one. You wont truly feel monotony at whenever you want of your time (that's what catalogues are for relating to when you question me).*

-- **Mabelle Dach III**
