Excerpt from **Elementary Algebra: Second Course** This volume has been prepared as a companion to the first course in elementary algebra, written by the same authors. As its title suggests, the second course is designed for students who have had the equivalent of the work given in the first course. The first course gives one year s work, including the topics now generally taught in the first year of the average high school. The second course reviews the topics treated in the first course, amplifies the treatment in the latter by the addition of new matter where necessary, and extends the course to include all topics required for admission to college.
